MILWAUKEE: Tuesday Morning, June 23. Good News from Minnesota.

We received, late last night, St. Paul papers of the 19th inst., by Mr. C. C. Storms, Clerk of the Steamer Ocean Wave. The Daily Times says: Reports received from Benton County district, yesterday, indicate that the Republicans have carried three out of the six delegates in that unexpected, to say the least.

We further hear that Flandrau is defeated as delegated at large, by the 500 Republican majoris.

delegate at large, by the 550 Republican majority in Waseca county, and the 'rumor' is now conty in Wascea county, and the 'rumor' is now confirmed that the Republicans have sent five delegates out of six from Goodhac District.

This makes the Convention stand 60 Republicans to 40 Democrate—and this will be about its complexion!

CHARACTERISTIC TRICK -The News persists in its will diministratements about the political character and editorial corps of the Buffalo Commercial, and seeks, by a characteristic, but disreputable trick, to make the Sentinet endorse its tabrications. In Sunday morning's issue the

Prior to the succession of Mr. Fillmore to the Presidency, for many years, E. R. Jewett, Esq., was the editor of the Builalo Commercial. It is now, with Dr. Foote, and others, the editor of the Commercial. The Sentinet knows these elatements are true; for, having this question in consideration, in its issue of the 17th that paper

The new editors and proprietors of the Com-mercial (Dr. Foote & E. R. Jewett & Co.,) are just as staunch fillmore men and just as much anti-Republican men, as they were "last year." The Sentinel never said what the News uscribes to it, and knows the statements of the News to be untrue. The quotation which the News pretends to give from the Eentinel of the 17th, is deliberately aftered to suit a particular pur pose. What we did say was; that "the new edifor and proprietors of the Commercial (Dr. Foote & E. R. Jewett & Co.,) are just as steunch Fillmore men" &c., &c. The News adds an s to the word "editor" and then parades this forged extract as proof against the Sentinel ! How can the News excuse or justify such a bare-faced

SENATOR DOUGLAS AT SPRINGFIRED. -The New informs us that Senator DougLas has been making another political harangue at Springfield, which it proposes shortly to lay before its readers, as just the document for the times. Meanwhile it charges the Chicago Tribune with publishing a false report of the speech, and its "alsolition neighbors in this city" with "catching up the drippings of their Chicago patterns," And against the Sentinel it makes a specific and, as usual, an utterly talse and unfounded complaint.

It is not supposable, for instance, that the Sentinel believed one word it copied from the Tribune; but as an opportunity was thus afforded its editors to slander and traduce a Pemocratic Statesman, it could not pass it by.

Now we do not remember to have copied one word from the Tribune on this subject, nor, on a hasty glance thre' our files, can we find any such. But we may mention for the edification of the News, and as an example which it would do well to follow, that the Sentinel never copies, nor publishes, what it does not believe to he nue, and, unlike the News, neither courts the opportunity, nor enjoys the work, of slandering and traducing its political opponents.

A QUESTION ANSWERED. The American of yesterday wants to know what the Sentinel would say, or think, in case the Directors of the La Crosse and Milwaukee R. R. should forbid the sale of our paper on their cars, as they have done that of the American. We should certainly think and be very apt to say, that it was a foolish proceeding, more likely to injure the road, than the paper. If the La Crosse Company have prohibited the sale of the American on their road, er they recall this unjust and unwise or. der, the better. Whatever provocation the American may have given, it is unworthy of the Company to retaliate in this fashion.

MASSACHUSETTS VOTERS .- The Boston Trace ter says, that returns from a portion of the towns in Massachusetts, indicate that the number of legal electors is about 192,000. If Wisconsin increas es, for the next three years in like proportion, as for the last three years, its population will equal that of the old Bay State. Massachusetts east, last fall, 107,000 votes for President, while Wisconsin cast about 120,000.

PLI THAVER'S EMIGRATION SCHEME. -- Mr Underwood, the Secretary of the New England Rusigrant Aid Society, gives notice that the important manufacturing site at the falls on the Ruppahannock river. Virginia, has been secured for improvement, and he publishes a letter from the Mayor of Fredericksburg, conveying to northern capitalists and emigrants who desire to settle there, assurances of fraternal feeling and cordial good will.

POPULATION OF CALIFORNIA .- A careful esti mate based on the latest returns of the local assessors, makes the population of California 507, 067, of whom 302,380 are American, 65,000 Indians, 88,687 Chinese, 15,000 French, 15,000 Mexicans, 10,000 Germans, 10,000 Irish, 2,000 English and 15,000 other foreigners, hesides 4,000 colored persons.

PEARLS IN PRINSYLVANIA .- The Lancaste (Penn.) Express gives an account of some pearls found in muscles, at Reigart's Landing, in the Conestoga river, near that city. One shell contained about eighty poarls, several being of the size of large peas. The muscle shells have been polished, and exhibit the most beautiful tints and colors of any pearl shells ever seen.

SCARGITY OF HERADSTUFFS IN NORTH CAROLINA -The Raleigh & Gaston R. R. Co., in consideration of the searcity of breadstuffs in North Carolina, are carrying corn at half price. A public meeting has been held at Weldon, in the same state, and a large sum of money raised to buy

LARGE DISCOVERY OF GOLD .- The Downieville California, Tunnel Co. have found recently a very large deposite of gold, in a quartz boulder .-They had, at the last dates, extricated \$17,000 in gold from it, and estimate the value of the

whole rock at not less than \$100,000. The importation of ten into the United States has declined sixteen millions of pounds the past twelve months, upon the amount receiv-

ed the previous year. The Empress Eugenie of France recently appeared at a ball, wearing jewels whose value was estimated at \$800,000, and having flounces

of lace on her robe that cost \$120,000. Rev. Mr. Spurgeon concludes not to visit

this country at present. His American publishers have forwarded \$1,000 as the result of three month sale of his Sermons here.

RAILEGAD MATTERS.—E. H. Brodhead, Esq., President of the Milwaukee and Mississippi Railroad, together with Col. Dousman, Mr. Holton, ane other prominent Directors, were in this city, vesterday, on Railroad matters. We learn that it is the intention of the Company to have the work on the Southern Wisconsin Railroad commenced to the Southern Wisconsin Railroad commenced and we will have the work on the Southern Wisconsin Railroad commenced to the Company of the two is the internal of the control of the Southern Wisconsin Railroad commenced at a very early day. We also learn that the two companies interested will commence work simultaneously, and that the best of feeling exists between them.—Galena Advertiser, June 20.

NEW YORK POLITICIANS.—The New York Mirror states that Gideon Tucker, formerly of the Alberty Argus, is engaged in writing a history of the Democratic party in New York. The Mirror says that no one "knows the ropes" better than "Gid Tucker." If the New York politicians generally had their deserts, some of them would know the ropes" a good deal better than they to.—Louisville Jour.

"Hon. Jas. Buchanan—Dear Sir:—The election is now over, and you are President. During the carvass I have hollered for you until I so hoarse, and my throat is sore, and I have spent all my small change. If you have got any office that would suit a boy of my age, (18 years) I would like to have it—and if not, please send me ten dollars.

"Yours, respectfully,"

A Valuable Invention. George W. Rodeboy, of this city, has just patented an improvement in the construction of Circular Saw Mills, to which we take pleasure in calling the attention of the public.

In sawing junior from the log, have seen to the to be, first, great and continued danger to the operator on account of there being no shield or protection over the saw plate while in motion, or process of cutting, as well as the liability of the saw to break and fly in pieces, to the destruction of life and property. Second, the necessity of using law plates so thick as to occasion a prodigal waste of material, thereby increasing the friction and causing a greater expenditure of power in running the mill. Therd, the saw is only guided, in most of the muchines now in use, after such an event what might to the Democratic party expect? Even in Ohio of the Democratic party expect? Even in Ohio double of the Democratic party expect? Even in for it has made its cut through the log, and in those wherein it is guided above the point where the saw cuts, the guides take up so large a porion of the saw as to prevent it from cutting its fell depth from the collar to the teeth, for which, and ouher reasons (now rendered invalid), the idea of cutting from above the log has hitherto been viewed as impracticable.

These several difficulties, it is claimed, are overcome-and a practical and economical machine, for sawing every description of lumber, is attained by the invention which is now offered to the public.

These improvements consist of a metalic shield or cap which is suspended over the upper half

We have taken great pains to be explicit in our description of this machine, because we regard it as an improvement which deserves to be brought into immediate and general use, and we desire that those who are specially interested in the milling business, should be able, if possible, to comprehend its advantages.

Wrong. His delay in answering the call of the sente was accounted for by others on the supposition that he wished to got the vouchers of the Banks in which had deposited money, and the return of whatever they were able to return. Irish Ploneer Emigration Society." The N. Y. Tribune announces the sailing for hat port of 170 young Irish women, under the uspices of this Society, of which Mr. Vere Forter is the active manager. The object of the institution of this fund is to raise the wages and therwise better the condition of poor families the poorest districts of Ireland by the assisted emigration to the United States or Canada of one member of each family, specially selected on account of good character and industrious habits, in the expectation that the persons so asplated will not only better their own condition, but wil. according to the usual generous practice of Irish emigrants, also send for, or otherwise greatly help the rest of the family in Ireland.

Nearly the whole of the girls, whose average age is twenty, and who may firly be described as the cream of the female peasantry of the County Louth, have been hitherto in farm service in the receipt of wages varying from six to eighteen dollars a year and their board, (most of them intend to have one hundred dollars a year in future) or from tou to twelve cents per day without board. The men were also in farm service, at wages varying from \$25 to \$33 a year and their board.

have been making a great ado over the late victory of their party in the New Haven, Ct., municipal election. Immediately after that election, charges of fraud were made against the viotorious party, and a committee of citizens was appointed to investigate the facts. The result of he investigation is seen in the following para-

graph from the Boston Traveller : ELECTION FRAGES IN NEW HAVEN.—The com-ELECTION FRADES IN NEW HAYEN.—The committee appointed to investigate the frauds as the late city election in New Haven, have already discovered more than righty cases in which persons voted in violation of all law! Besides these over two hundred voted who were not upon the registry list made up after the spring election, a large number of whom cannot be found at the residences which they assigned. And, furthermore, the Committee have thus far detected a considerable number of cases in which persons voted twice. At a public meeting held on Thursday evening, these revelations created great excitement. It seemed incredible that the swinding games by which Democracy has diringuigh-

citement. It seemed increases that he swind-ling games by which Democracy has discinguish-ed itself in California, New York, Pailadelphia, Indians, Minnosota, and Kansas, has been so ex-tensively practised in New Haven. After speech-ea by several gentlemen, a committee was ap-pointed to present the matter to the Legislature.

The Chio Betaleation.

The immense defaication of the Ohio State Treasury, which is found to reach nearly \$750, 000, naturally excites great attention throughout the country. In order to aid placing the blame where it properly belongs, the Cincinnat Gazette in sawing lumber from the log, have been found gives the following history of this legacy from

hol the Democratic party espect? Even in Ohlo they had reason to expect a perpetuity of power, a Medial was Governor, Trevitt was Scoretary, alorgan, Anditor, and Breslin, Treasorer. They supposed themselves beyond the reach of any political disaster, and each in turn, signalized him sell, by arbitrary acts of party power. About this time, the Kanawha Bank was ideeding the arrests of Cincinnati with its notes. They were at

sine, by accounting Batik was fleeding the streets line, the Kantawha Batik was fleeding the streets of Cincinnati with its notes. They were at every corner, and in everybodys hands, till mercurse, a reaction soon took place, and the Kantawha notos were driven home. At the same time awha notos were driven home. At the same time is we inistake not, a certain Mr. Cones was officiating in a three-fold public character, as Casheiating in a three-fold public character, as Casheiating in a three-fold public character, as Casheiating in a three-fold public character. At the caste Committee of Hamilton County! At the casheight of the County is a time, certain noted political characters had dealings with him.

These improvements consist of a metalic shield or cap which is suspended over the upper half of the Saw in such a manner as to absolutely prevent the operator from coming in contact with it, and at the same time furnishing a complete protection against destruction of life or property in case the saw, in its rapid motion, should fly in pieces, a thing of frequent occurrence.

The circular "muley head" is arranged in a peculiar manner on this stationary shield, whereby the guidea are capable of being adjusted to any position desired, and are made to guide the saw at the point of cutting without taking up any portion of the depth of the saw used, whereby warping is prevented and saws of one half the thickness of those new required, may be used with safety, and the friction and the amount of power required in running machines greatly reduced.

Another important feature in this machine consists in two elliptic springs attached to the movable "muley head," which is predecessor, Breslin, had demony and the saw.

"We have now shown a carious collocation o "We have now shown a curious collection of facts and parties, the mere statement of which is enough to enable an acute mind to see more than what the open record hasyet revealed. We have in a sort of financial series, the Kanawha Bauk, Mr. Cones, Cashier; Mr. Cones Broker, and Chairman of the Democratic Committee; the Domocratic Treasurer of finality County, the Democratic Treasurer of finality County, the Demooratic Treasurer of Hamilton County, the Demo-eratic Treasurer of Shite, the worthless Certificates of Deposite, and the Treasury Defalcation! If of Deposite, and the Treasury Detalcation! If we could get the names of horrowers at the Kanawin Bank, and of the deposite Banke, and the elimate disbursement of the money, we should have the deficient lists of this history, and be able to exhibit one of the finest illustrations of political financiering. But since there is no inquisitorial power, the world must, we fear, be satisfied with only fragments of this interesting charter."

The Gamette shows no disposition to screen Mr. Gusos from his responsibility for concealing the deficit so long, out of regard for his brother-inlaw, the late Democratic Treasurer.

Rotation in Office.

A Washington letter-writer says a sarcastic Democrat, who has felt the hand of rotation, supposes the following scene and dialogue:

A New Peer.—The apple trees in this region this spring seem to have been pretty generally attacked by a new enemy, viz: a small greenish white worm, which commenced its work at the end of the twigs, among the young leaves, and eats it way out. Whence they came, what they are, and whither they go, no one here seems to know. Their work will greatly lessen the fruit cops of this year, and it is forred will seriously damage many orchards. Foreign imports and Exports.

The new tails will go into operation on the first of July next. The importers have directed their arrangements, for three menths past, to this change of the rate of duties. The goods that have been imported since the act passed have for the most part, been put in bond, and, when brought into consumption, will be subject to the reduced rates of duty.

The amount of foreign imports at New York for the month of May last was \$18,705,000, exceeding the amount imported in the mouth of May, 1856, in govern millions. But only one third of the dutiable imports for the month were entered for consumption.

The imports at New York for the eleven months of the present fiscal year amounted to \$219,545,000. The total is over thirty millions.

The imports at New York for the cleven months of the present fiscal year amounted to \$210,645,000. The total is over thirty millions larger than the import for the same period of the preceding year, and sixty-eight millions larger than for the cleven months ending May 30, 1850.

The imports into the city of New York are in amount about two-thirds of the aggregate of the imports into the country.

It appears that the imports of the fiscal year ending on the 20th of the present month will greatly exceed those of either of the last three years, and that they will also be considerably in excess of the amount of exports.

The New York Journal of Commerce states, however, that a large part of the imports is made The New York Journal of Commerce states, however, that a large part of the imports is made up of an overstock of sugar and coffee. This states was brought in, not for consumption, but for reshipment when the price shall be high countries of dury; but we think the effect of such a reduction is generally overrated. The law of detected and the change of duties will tend to place the burden of an overstock upon the right shoulders.

The trade is foreign fabrics has not been very profitable of late, and, if the importers increase the stock befored the demand, prices must fall.

Thus low duties serve to check excessive importations. capeution is mocover to innertune carbonalisms in the Black hills about the settrees of the Cheyome and Little Miss ori tivers; and is to examine the Nubrara or Lean qui court river for the purpose of ascertaining the practicability of locating a road along it, teading from the Missouri fiver to the South Fars. OUTRAGEOUS,-Two boys were arrested latur. Lay evening and kept in the Init until M nday morning; one for whipping the other, and the other for getting whipped. They were taken before the police so charge whatever brought against him. The policecan who arrested them, being asked by the City Attorboys struck the other on the head, but the other did not atrike back, made no noise, was not disorderly, or abusive; did nothing but very meetly received the thump which the offender gave him; therefore he arrested both of them ! This is, in substance, what the policeman tes-

charged with being disorderly. The case was adjourned to the 22nd inst. In justice to Mr. Hawkins we will state that the charge was an erroneous one, as appeared upon investigating the matter, and yetterdey morning the case was dismissed by direction of the City Attorney, as it was evident that Mr. Hawkins did nothing that could be considered disorderly; on the contrary all he did was in mere self-defence, and was by all means justifiable.— Mr. Hawking Is one of our most prominent, respected and active citizens; has been a member of our Legis'ature, of our citizens, and is admired by all who know him for his gentlemanly and social qualities. In addition to all this, he is the proprietor of the well known Hawkins House in the Fifth Word.

NEW BOOK BY THE AUTHOR OF "ZAIDEE."-We are indebted to ETRICELAND & Co., for a copy of # Adam Graeme of Messgray," by Mrs. OLIPHANT, whose evious productions, "Zaidee" and Magdalen Hepburn, have wen descrived popularity. This new work is not inferior in ability, or interest, to either of its preden saors and whi, like them, be extensively read. It is published by Garrett, Dick and Fitzgerald, N. THE DIRECTORY MAP .- The Map prepared to accompany the new Directory, referred to in the selver-tisement in our special columns this morning, is carefully got up by I. A. Larham, Esq., whose mame is a sufficient guarantee of its correctness. It contains all the Additions to the city platied and recorded up to a late date, and has laid down upon it the locations of the churches and other public buildings, with a reference table in the margin. The Map is too large to be conveniently folded into the Directory, but will be sold at a reduced price SALE OF LARKIN'S ADDITION .-- On Wednesday

(to-morrow), Messrs. Ocove & Watt. sell at Auction the best in O. H. Larkins' Addition. In the First Ward, maps of which have been prepared, and may be had at their office. This Addition is beautifully situated about a quar er of a mile above the Dam; on the east side of the Mil wankee River, running from Murray's Addition to the fiver bank. The land has a five natural grade, requiring reservants. The isput has some instance grade, requiring neither filling nor grading to make the lots ready for immediate occupation, and the opportunity is an excellent one for persons who desire to source homestearts at a low agers. DISTRESSING ACCIDENT NEAR THIS CITY. - Yes

Bigraraging Accident NAAR THIS CITY.— Tus-thar morning a most distressing accident happened at the residence of Mr. Trowbridge, some three selles cut of this city, on the Muquonage plank road. The merning was bright and pleasant, and a levely hitle daughter of the west cut to the yard to swing a little white. White enjoying herself in this manner, one of the beams to which the swing was statched, it hand killed her aimed in sant-ily. It struck her upon one side of the head, sad before a physician could reach her, she had gone from an earli-ity Sabbath to one that will continue forever,— Wiscontin of last evening.

Within the past year, I have puld teres sundered and Within the past year, I have nited raise about 40 Am services years the composition used for such improvements is known as West's Submarke Concate for rooths. I am so well satisfied of the volue received for the expenditure, and of the superiority of this article for roothing purposes, over any other article now in use, that I have engaged to have it applied to the building which I am having erected on the corner of Plast Water and Michigan streets.

During the winter of 180 and 1807. I had West's Galvanie Geacett Reeding applied to the Excelsion Block,
rected on the corner where the United States Hotel was
burned. This roofing, although yet in an unbuished condition, having only about one-half the composition of a
complete roof, and that to the most unfavorable seaso a
